Q16. Switching gears, the State Department of Environmental Conservation is expected to soon issue a decision on whether or not to allow hydrofracking - that is, the proposed method to recover natural gas from parts of upstate New York - to move forward. How much have you heard or read about it - a great deal, some, not very much, or nothing at all?

I'm going to read you some statements that have been made about hydrofracking and I'd like you to tell me whether you completely agree with that statement, somewhat agree with it, neither agree nor disagree, disagree somewhat, or completely disagree with that statement. If you do not have enough information in order to say, simply tell me you don't know.

If DEC decides to move forward with hydrofracking, there are some regulatory actions that DEC can impose. For each of these potential actions DEC could take, I'd like you to tell me whether it makes you more likely to support hydrofracking moving forward in parts of upstate, would have no effect on your position one way or the other, or do you oppose DEC taking this action.

Q26. Hydrofracking could only be approved for a trial period subject to study and a reauthorization process
